THE RIGHT TEAM, THE RIGHT ASSETS, THE RIGHT TIME

CHRYSAOR

## Chrysaor

[Kris-or]

Chrysaor is now the UK's leading North Sea independent oil and gas company with a diversified portfolio of interests in 5 of the 10 largest production hubs in the UKNS. We operate 8 fields with 21 wells and partner some of the world's largest companies in 17 non-operated fields with 147 wells.

Chrysaor will deliver profitable near-term, medium term and full cycle growth across the North Sea region, with significant material potential for oil and gas production.

Our vision is to create a market-leading North European E&P company that we and our stakeholders can be proud of.

**120k net boe**
